COUPÉ

GREAT SEAWORTHINESS AND CLASSIC, UNMISTAKABLE ELEGANCE

These are the key features that define the Solaris Power range since its beginnings.

SAFETY AND COMFORT WHEN AT SEA

Thanks to the deep V hull and accurate balancing of weight the boat sails smoothly through the waves. The walkaround guarantees free and safe movement even in choppy seas.

GREAT EASE ON DECK

Extensive living area with direct access to the kitchen, wide cockpit and a generous sundeck astern.

GREAT EASE BELOW DECK

Three double cabins and two bathrooms with enclosed shower and tender garage. Unique roominess for such a sporting boat.

THE GREAT SEAGOING CAPABILITIES OF SOLARIS POWER

SMOOTH SAILING THROUGH THE WAVES AND A DRY DECK IN CHOPPY SEAS

The sharp shape of the bow and the pronounced flare, softens the passage through the waves and keeps the deck dry.

GREAT STABILITY WHILE CRUISING AND AT ANCHOR

The hull shape guarantees great stability and comfort when cruising and at anchor, without the need for stabilizers.

LOW FUEL CONSUMPTION RESULTING IN EXCELLENT RANGE

The advanced studies on the shapes of the hull, ensure low fuel consumption, resulting in excellent range and reduced CO₂ emissions.

EFFICIENT CRUISING BOTH IN DISPLACEMENT AND IN PLANING MODE

Unlike ordinary boats with planing hulls, Solaris Power are capable to cruise steadily and without roll even in displacement mode from 10 to 14 knots.

THE LATEST PROPULSION TECHNOLOGY

Solaris Power yachts feature cutting-edge propulsion working in synergy with the shape of the hull. This is the outcome of intense collaboration between Victory Design and Volvo Penta. Since 2005 Brunello Acampora has

been studying shapes that are optimised for the IPS, including 'azimuth pods' for planing hulls; having found they generate huge performance improvements. Moreover, the compactness of the propulsion apparatus yields a noticeable

increase of living space: the interiors of these boats compare favourably with much bigger yachts, and make the tender easy to stow, launch and haul.

EASY DOCKING THANKS TO THE JOYSTICK

Docking manoeuvres are simplified thanks to the joystick and the azimuth pods, even with a single person at the controls.

LOW NOISE LEVEL AND ZERO VIBRATIONS

The absence of the rotating masses of the shaft line and the engine exhausts in the propeller pods ensure absence of vibrations and low noise.

SPACIOUS AND WELL VENTILATED ENGINE ROOM

Offering easy access to the engine itself and to the other systems.

EXTRAORDINARY ROOMINESS:
THREE DOUBLE CABINS
AND TWO BATHROOMS
WITH ENCLOSED SHOWER.

THE ROOMIEST INTERIOR FOR A 52-FOOTER

LOWER DECK
Version A (standard)

THE GALLEY

THE MAIN COMFORTS ONBOARD

WALKAROUND

The deck includes lateral walkways that afford easy and safe movement from bow to stern when at sea.

TENDER GARAGE

Under the aft opening sundeck there is a large garage that can fit a water-jet tender and various water toys.

TENDER LIFT STERN PLATFORM

It can be used during all nautical activities on board: lifting and launching a tender, a jet-ski or sea bobs, as well as a swimming deck.

HYDRAULIC GANGWAY

The hydraulic gangway turns into a comfortable swim ladder.

SOLARIS: SINCE 1974 QUALITY, SEAWORTHINESS AND ELEGANCE

The boatyard's reputation, founded in Aquileia 45 years ago, is better known among German, Swiss and Austrian yachtsmen than it is in Italy.

Right from the beginning, the company's philosophy has been the building seaworthy, solid and secure sailing boats to the highest quality standards, capable of challenging the prestigious Scandinavian and Dutch yacht builders. Fittingly, Solaris claims that our yachts are also: "Built for mariners".

Its volume and revenues increased fivefold in just a few years and

today it is the European leader in the category of top-class sailing boats from 50' to 110'. There are not many boatyards left today, who can combine leading-edge technology with traditional craftsmanship of detail and finishing as Solaris Yachts does.

Since 2008 Solaris also operates a production unit dedicated to motoryachts from 44' to 100', including five 90' luxury displacement motoryachts for an internationally renowned brand.

This facility is now the builder of the new Solaris Power range, to the same exacting quality standards of Solaris sailboats.

TRADITIONAL CRAFTSMANSHIP

There are not many boatyards left today, that can combine leading-edge technology with traditional craftsmanship of details and finishing as Solaris Yachts does.

THE LOBSTER BOAT HERITAGE

Solaris was among the first in Europe to build a lobster boat, the 47-foot Express Cruiser, by Bruce King, designer of the famous American Hinckley line.
